SITUATION SUMMARY

Flood Operation Center(FOC), Department of Water Resources (DWR), Prepositioning of Resources and Personnel (Continued)

- River forecasts will be issued once per day Thursday 11/22/18 through Sunday 11/25/18. Minor rises are forecast on the main stem rivers.
- Flood Operations Branch (FOB) staff are assisting DWR's Security and Emergency Management Program to fulfill four Cal OES mission tasks for assistance with burn scar areas:
 - Flood fight materials to Chico Airport:
 - Two containers were delivered to the Chico staging area on Sunday, 11/18/18. Material from the containers was delivered to Paradise yesterday, 11/19/18.
 - An additional 64 rolls of Visqueen were delivered to the Chico staging area by Sutter Yard staff at 1530 hours on 11/19/18.
 - Flood fight materials to Butte County Fairgrounds:
 - Flood Fight Specialist directed CCC crews to place sand bags around temporary shelters.
 - Sutter Maintenance Yard staff are delivering sandbags to three shelter locations (two in Chico, one in Orland) for use in temporary shelter protection.
 - 8,000 sandbags were requested to be staged at the Butte County Fairgrounds in Gridley to protect the temporary housing for evacuees against potential flooding.
 - Two flood fight material containers are already located at the fairgrounds with 12,000 sandbags each.
 - Cal OES coordinated the transportation to pick up 5,000 sandbags from the Butte County Fairgrounds in Gridley to be delivered to the Nazarene Church in Oroville.
 - Flood fight materials to Evacuation Centers in Chico and Orland:
 - Sutter Maintenance Yard staff arrived at Neighborhood Church in Chico at approximately 1400 hours to deliver 5,000 sandbags. From there they will deliver 10,000 sandbags to the East Avenue Church in Chico, and 4,000 sandbags to the Glenn County Fairgrounds in Orland.
 - Flood fight materials to Los Alamitos:
 - Cal OES requested two flood fight material containers to be pre-deployed near the Cal OES Regional Operations Center in Los Alamitos.
 - Four containers are already staged at this location. Staff is available to provide access if needed.
 - Staff:
 - Flood Fight Specialist will assess four additional shelter locations (two in Chico, one in Oroville, and one in Orland) and provide recommendations for temporary shelter protection.
 - Four flood fight specialists (two from North Region Office and two from DFM) have been identified to provide technical assistance on Visqueen placement to cover burned parcels to prevent hazardous materials from being washed into waterways. Two are on site in Paradise as of 11/20/18 and two are available for future deployment if needed.
 - Three safety engineers have been identified to evaluate field and working conditions. One has been deployed to Chico, and two are available for future deployment, if needed.
- FOB staff will continue to monitor and assist through the holiday weekend as needed.
- Updates will be provided if necessary.
- Precipitation can be monitored at the following website: http://cdec.water.ca.gov/california_burn_areas.html.

WEATHER OF CONCERN

Northern California

- High astronomical tides will cause minor flooding in low-lying areas along portions of Humboldt Bay.
 - The water level is expected to peak between 8.7 and 8.9 feet.
- Rains are expected to return Monday night and Tuesday with periods of rain continuing through the end of the week.

Southern California

- Gusty west to north winds will persist across the region through this evening, however humidities will remain elevated today.
- There is a continued chance of light showers this morning across areas north of Point Conception, lingering across the north facing mountain slopes through this evening.
 - The strongest northerly winds will be gusting between 35 and 45 mph across the Santa Ynez Range and Santa Barbara south coast as well as the Interstate 5 corridor in the Los Angeles county mountains through this evening, however humidities in these areas will remain high.

Key Points

11/24/18 - 11/30/18

Saturday

- Drier weather developing through the day.
- Gusty winds expected through Saturday afternoon in the Kern County mountain passes
 - West winds 25-35 mph with gusts up to 55 mph expected, which could make driving difficult for high profile vehicles and cause fire damaged trees to fall in burn scar areas

Sunday-Monday

- A weak to moderate Santa Ana event will bring offshore winds back to southern California Sunday and Monday, creating elevated fire weather concerns.

Tuesday-Friday

- Multiple storm systems could impact California through next week.
 - The first storm is expected to impact primarily northern and central California on Tuesday.
 - A potentially stronger and more widespread storm is likely across the state Wednesday through Friday, though exact timing and details are still low confidence.

Severe Impacts

Santa Ana Event Sunday and Monday

- A weak to moderate Santa Ana wind event is expected starting Sunday through early next week across Southern California, creating elevated fire weather concerns
 - Northeast winds gusting 30-40 mph across wind prone areas of LA/Ventura counties
 - Humidities remaining above 20 percent on Sunday, lowering to 10-20 percent across LA/Ventura counties on Monday leading to elevated to possibly brief critical fire weather conditions
 - Northeast winds gusting 25-40 mph across wind prone areas of San Bernardino/Riverside/Orange counties Sunday and Monday. Minimum relative humidity of 15-20 percent Monday will lead to elevated fire weather conditions.

WEATHER SYNOPSIS BY REGION

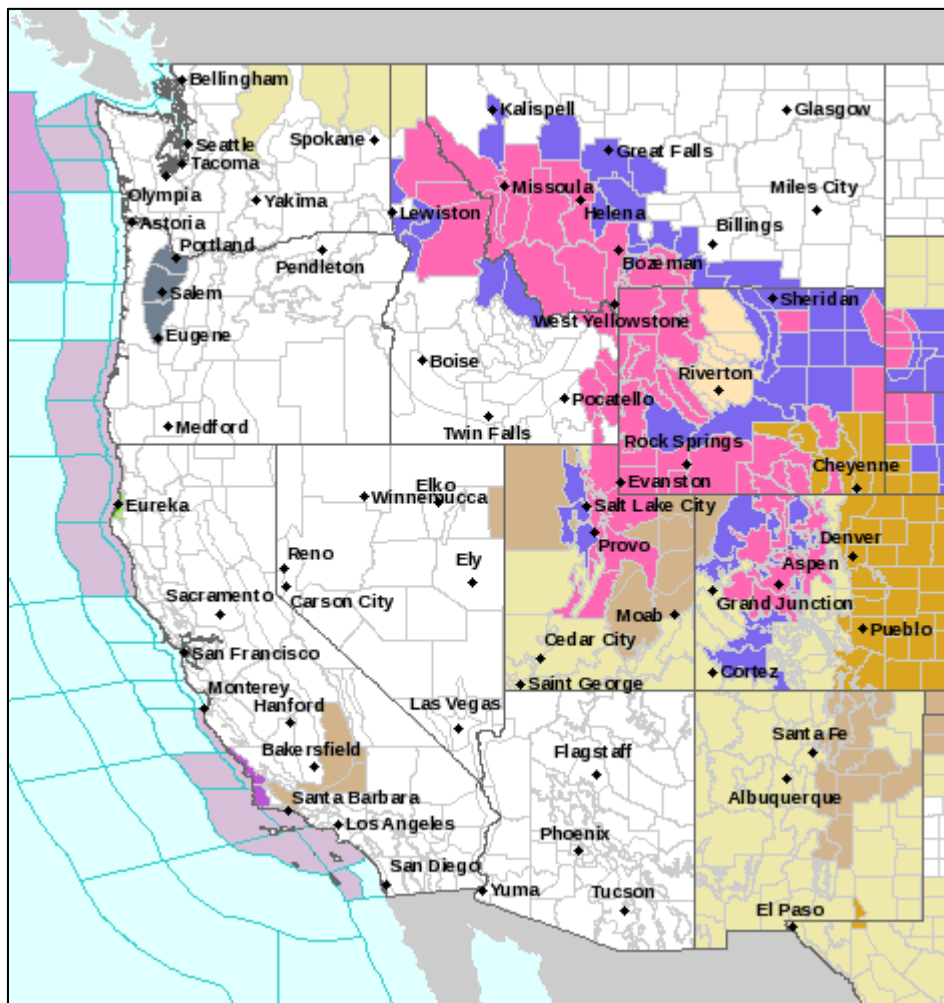

NORTHERN CALIFORNIA

- Scattered showers this morning over the Sierra then dry through early next week.
- Valley fog possible next couple of mornings.
- Next chance of precipitation next Tuesday.
- Heavier precipitation and lower snow levels possible next Thursday.
- One last shortwave trough dropping across northeast California bringing scattered light showers mainly to the Sierra.
- Plentiful residual moisture in the valley translating to some fog and low clouds there.
- Models indicating lower elevations should begin drying out by mid day today as winds transition to northerly behind the shortwave.
- Upper ridge builds over the west coast tonight and Sunday bringing a period of dry weather early next week.
- Stable conditions under the ridge will bring a continued threat of valley fog night and morning hours although light northerly breezes may limit area of fog coverage to the southern Sacramento and northern San Joaquin valleys.

SOUTHERN CALIFORNIA

- Moist onshore flow will bring occasional clouds through tonight, with isolated, brief showers at times, mainly over San Diego County.
- Warmer Sunday through Tuesday due to weak to moderate Santa Ana conditions, then cooler as a moist Pacific flow sets up later in the week with a deepening trough along the West Coast.
- Periods of rain and mountain snow are possible beginning about Thursday as disturbances in the flow traverse the State, but details on timing and intensity of the precipitation this far south remain elusive.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-55760, 11/22/18, 1539 hours:** Madera County Sheriff's Department (MCSD) requested a hoist equipped helicopter to extract a 45 year old female hiker from a mountainous area of Eastern Madera County, GPS 37.7063° by -119.1495°. The hiker had become lost and disoriented. She was suffering from the extreme cold. A CHP helicopter located the victim but was unable to effect a rescue due to high winds. CHP suggested a larger aircraft from the National Guard. National Guard was contacted but could not respond until the following morning. A helicopter from China Lake Naval Weapons Center was available for an immediate response. China Lake responded to the area but was unable to complete the rescue due to weather conditions. National Guard was re-contacted and agreed to respond with a helicopter, with an expected arrival time of 0745-0800 hours on 11/23/18. **Update 11/24/18:** A helicopter from the California National Guard was able to locate and extract the victim. She was transported for medical follow up. **Mission Closed**
